Labels

Which type of label is right for me?

QAQC LAB offer two types of standard label backing:
• Ultra Adhesive Labels
• PharmaLabels

1. Ultra Adhesive (UA) Labels

• Robust foil-backed labels
• Standard label are available in two sizes: 95mm x 95mm or 150mm x 150mm
• Very high strength adhesive - will even stick on very dusty surfaces
• Working Temperature Range -20 to +70°C (-5 to +160°F)

Dust Proof

UA Labels are ideal for sealing sacks after sampling. UA Labels will stick to virtually any surface, they will even stick to dusty sacks.

The label will not only record the fact that the sack has been sampled but it will prevent the sack from leaking powder as it is handled.

Weather Proof

Even after being submerged in water for 48 hours the UA label was intact, it was securely attached to the bag and could be written on using a ball point pen.

2. PharmaLabels (with food grade glue)

PharmaLabels are a range of paper labels with a special FDA acceptable adhesive. PharmaLabels are ideal for applications where the adhesive might come into contact with the product.

• Medium strength adhesion
• FDA acceptable adhesive (CFR175.105)
• Working Temperature Range -40 to +70°C (-40 to +160°F)

Quality Control Labels

Quality Control Labels are available printed on either Ultra Adhesive or PharmaLabels.

Labels

Clear Labels
A see-through label with a food grade adhesive

Clear Labels are ideal for sealing bags and sacks. These labels are made from a clear polypropylene film and they have an FDA acceptable adhesive. Clear Labels are ideal for sealing sampling holes. The label is transparent so that printing underneath the label can still be easily read.

Clear Labels are suitable for some types of NIR.

- Each roll is individually wrapped
- 95mm x 95mm size
- Adhesive conforms to FDA CFR175.105

Pharma Labels = food grade, medium strength glue

Part No.	Label Type	Colour	Size	Number of Labels per Roll
675 8220C01	Pharma Labels	Clear	95 x 95mm	500

QUICK QUOTE   **ONLINE PRICING**

Custom Labels

Simply sketch your design on paper and email it to QAQC LAB and we will do the rest.

- Custom labels to your design specification
- Available as PharmaLabels or UA Labels
- Any size or shape of label is possible
- Single color or full colur printing is available
- Minimum order 5 rolls
- Typical delivery time is 2 weeks
- Contact QAQC LAB for further information

UA Tape
Ultra Adhesive Tape for sealing sacks

UA (ultra adhesive) Tape is ideal for sealing holes in sacks and bags. The tape comes in a roll that is 50m long so you just cut off as much as you need.

- Tape uses the same glue as Ultra Adhesive labels
- Available in 2 widths - 95mm and 50mm
- Available from stock

Part No.	Adhesive	Colour	Tape Length	Tape Width
675 8224A50	Ultra Adhesive (UA)	White	50m (approx.)	50mm
675 8224A95	Ultra Adhesive (UA)	White	50m (approx.)	95mm

Label Dispensers

Label Dispensers are useful for storing labels and they provide a flat writing area. Label Dispensers are made from sturdy aluminium and are available in two sizes.

Part No.	Label Type
675 8220A07	Label Dispensers for 95mm wide labels
675 8220A17	Label Dispensers for 150mm wide labels

QUICK QUOTE   **ONLINE PRICING**

ID Tape
Helps prevent handling errors

QAQC LAB ID Tape is available in a range of styles. Containers, bags etc. can be easily labeled with highly visible tape. Quickly identify the status of a container to prevent it being used in error.

- Use with standard tape dispensers
- High strength adhesive
- 10 rolls per box

Part No.	Text	Text Colour	Length per Roll	Width	Rolls per Box
675 8221A01	Quarantined	Red	66m	50mm	10
675 8221A02	Sampled	Red	66m	50mm	10
675 8221A03	Released	Red	66m	50mm	10
675 8221A04	Rejected	Red	66m	50mm	10
